FROM INNOVATION TO SOLUTION

# SESAR RESEARCH & INNOVATION PROGRAMME

**Florian Guillermet**  
Executive Director  
SESAR Joint Undertaking

founding members

EUROPEAN UNION

EUROCONTROL

# Why SESAR?

- European ATM - Essential component in air transport system (worth €8.4 billion/year\*)

- Complex infrastructure = Inefficiencies

In 2010 en-route flights were delayed by an estimated **19.4 million minutes**.\*\*

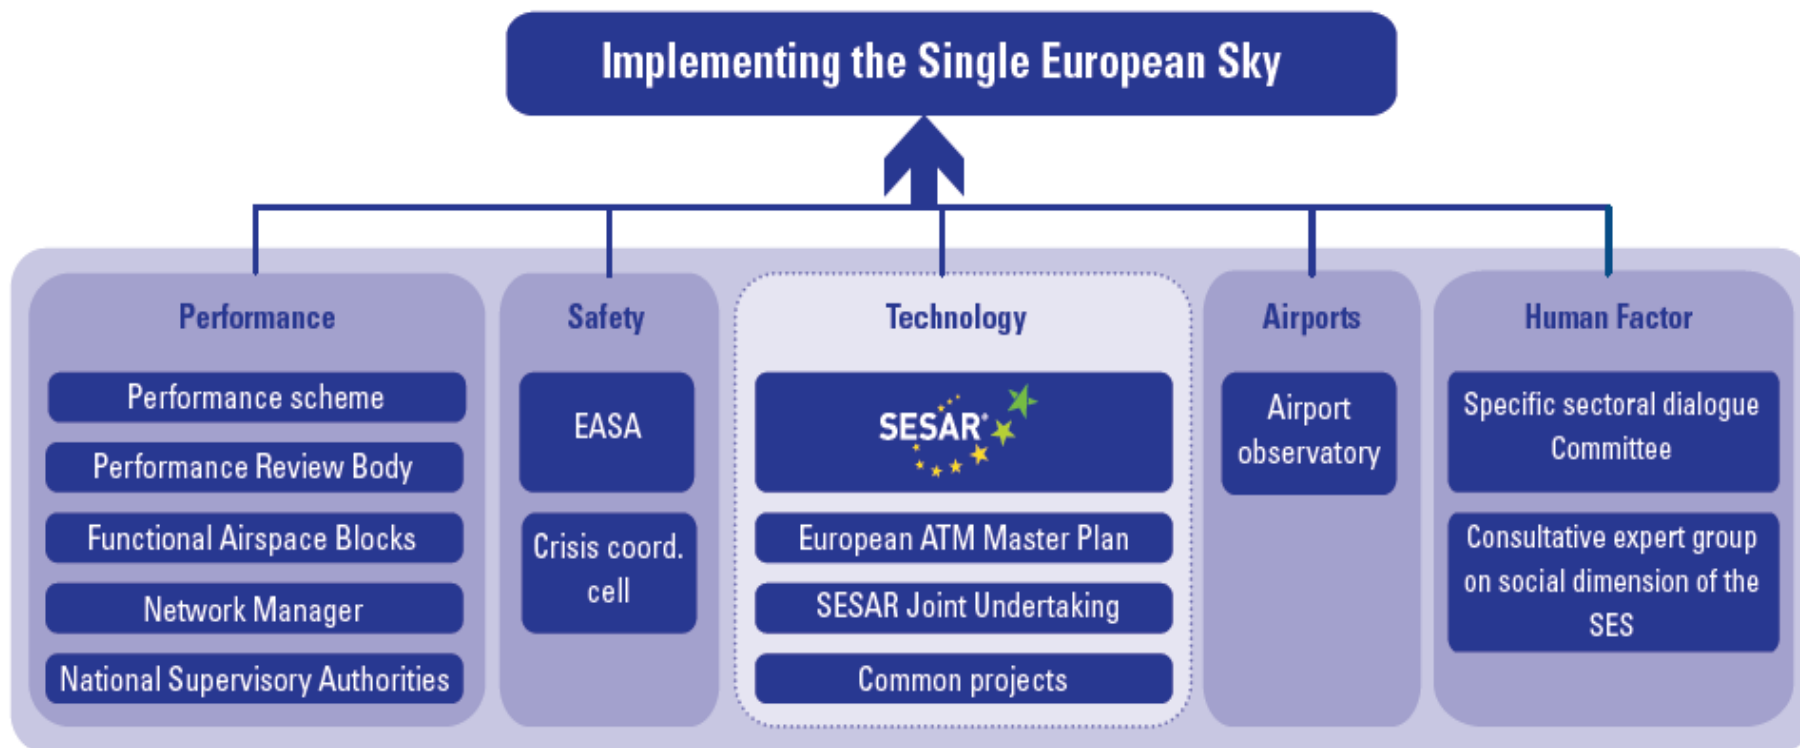

On average, each flight was **49 km longer** than direct flights.\*\*

Estimated costs of airspace fragmentation amounts to **€4 billion a year**.\*\*

# Single European Sky (SES)

## SES、SESAR、绩效方案及目标和绩效间的关系

# SESAR Profile

**Name:** SESAR Research and Innovation Programme

**Established:** 2007

**Occupation:** Researching and developing technologies and operations to fast track ATM modernisation

**Co-founded by:** Eurocontrol and European Union

**Managed by:** SESAR Joint Undertaking

**Members:** 15 and 13 associate partners

**Companies involved:** 110 in +20 countries

**People involved:** 3,000 ATM experts

**Projects:** 300+ projects

**Budget:** EUR 3.6 bio until 2024

# Unique public-private partnership

## Members

founding members

## Associate partners

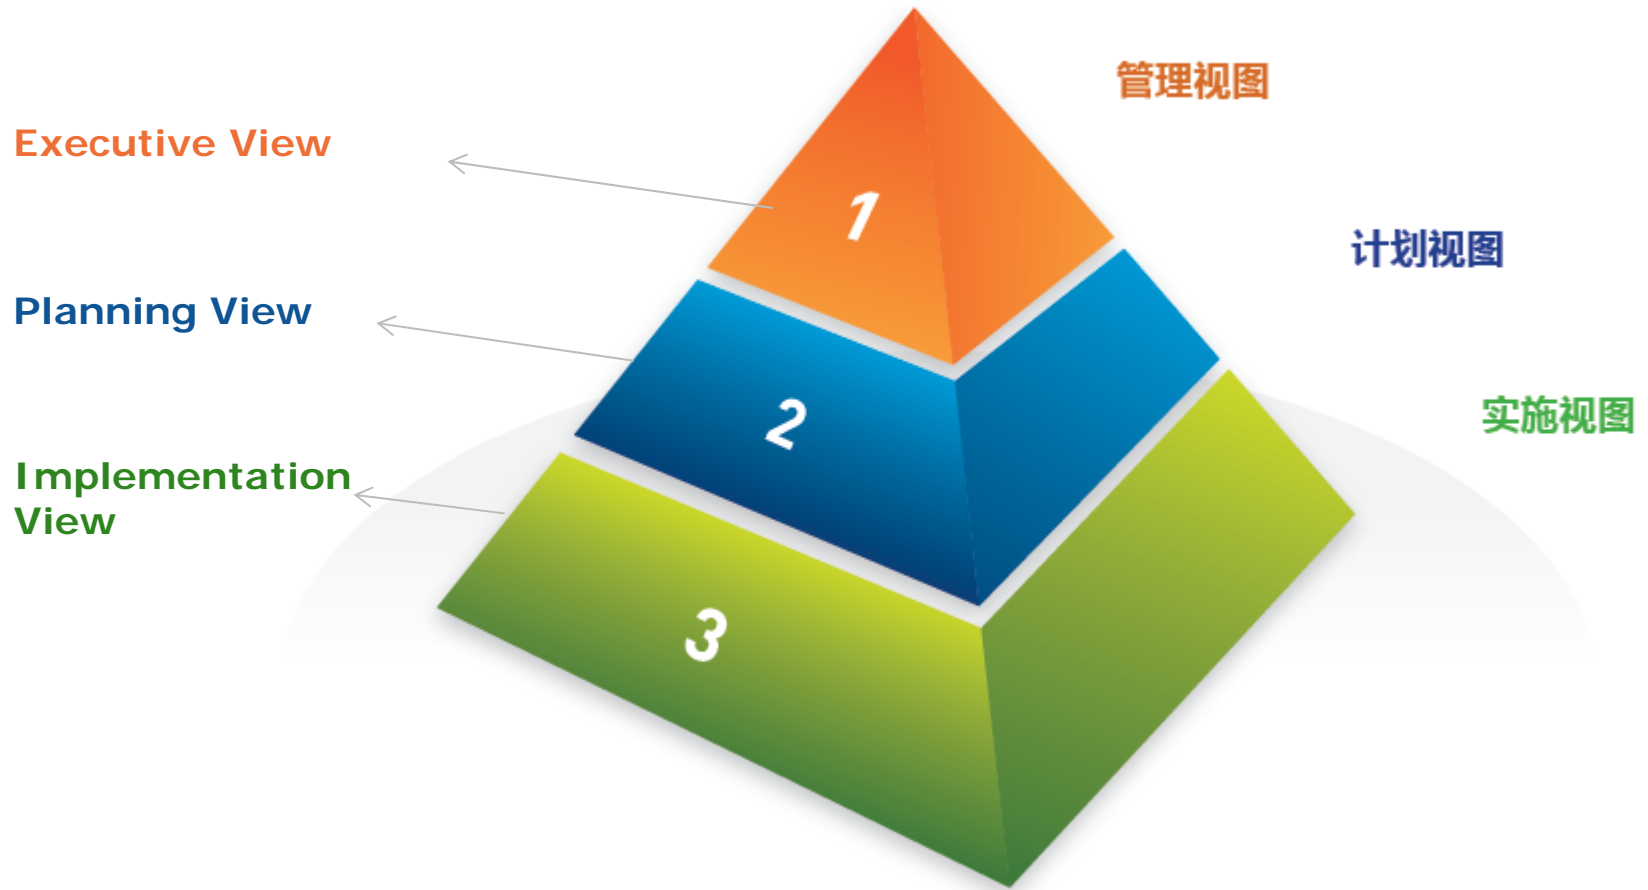

SCHEDULED & CHARTER AIRLINES	
AIRFRANCE	American Airlines
BRITISH AIRWAYS	IBERIA
Lufthansa	novair
SAS	TURKISH AIRLINES
EL AL	TUI fly.com
LOW FARE AIRLINES	CARGO OPERATORS
ELFAA	DHL
flybe	Lufthansa Cargo
Jet2.com	RYANAIR
BUSINESS AVIATION & GENERAL AVIATION (INCL. HELICOPTERS)	
ACBA	DASSAULT AVIATION
EHA	IATA
NETJETS	

# With all actors required to change ATM

# European ATM Master Plan 欧洲空中交通管理总体规划

图1 欧洲ATM总体规划层级

# SESAR in three steps

By the end of **STEP ONE**, the SESAR Programme aims to have contributed the following:

✦ A **27%** increase in Europe's airspace capacity

✦ A **40%** reduction in accident risk per flight hour - corresponding to the safety need associated with the anticipated traffic growth

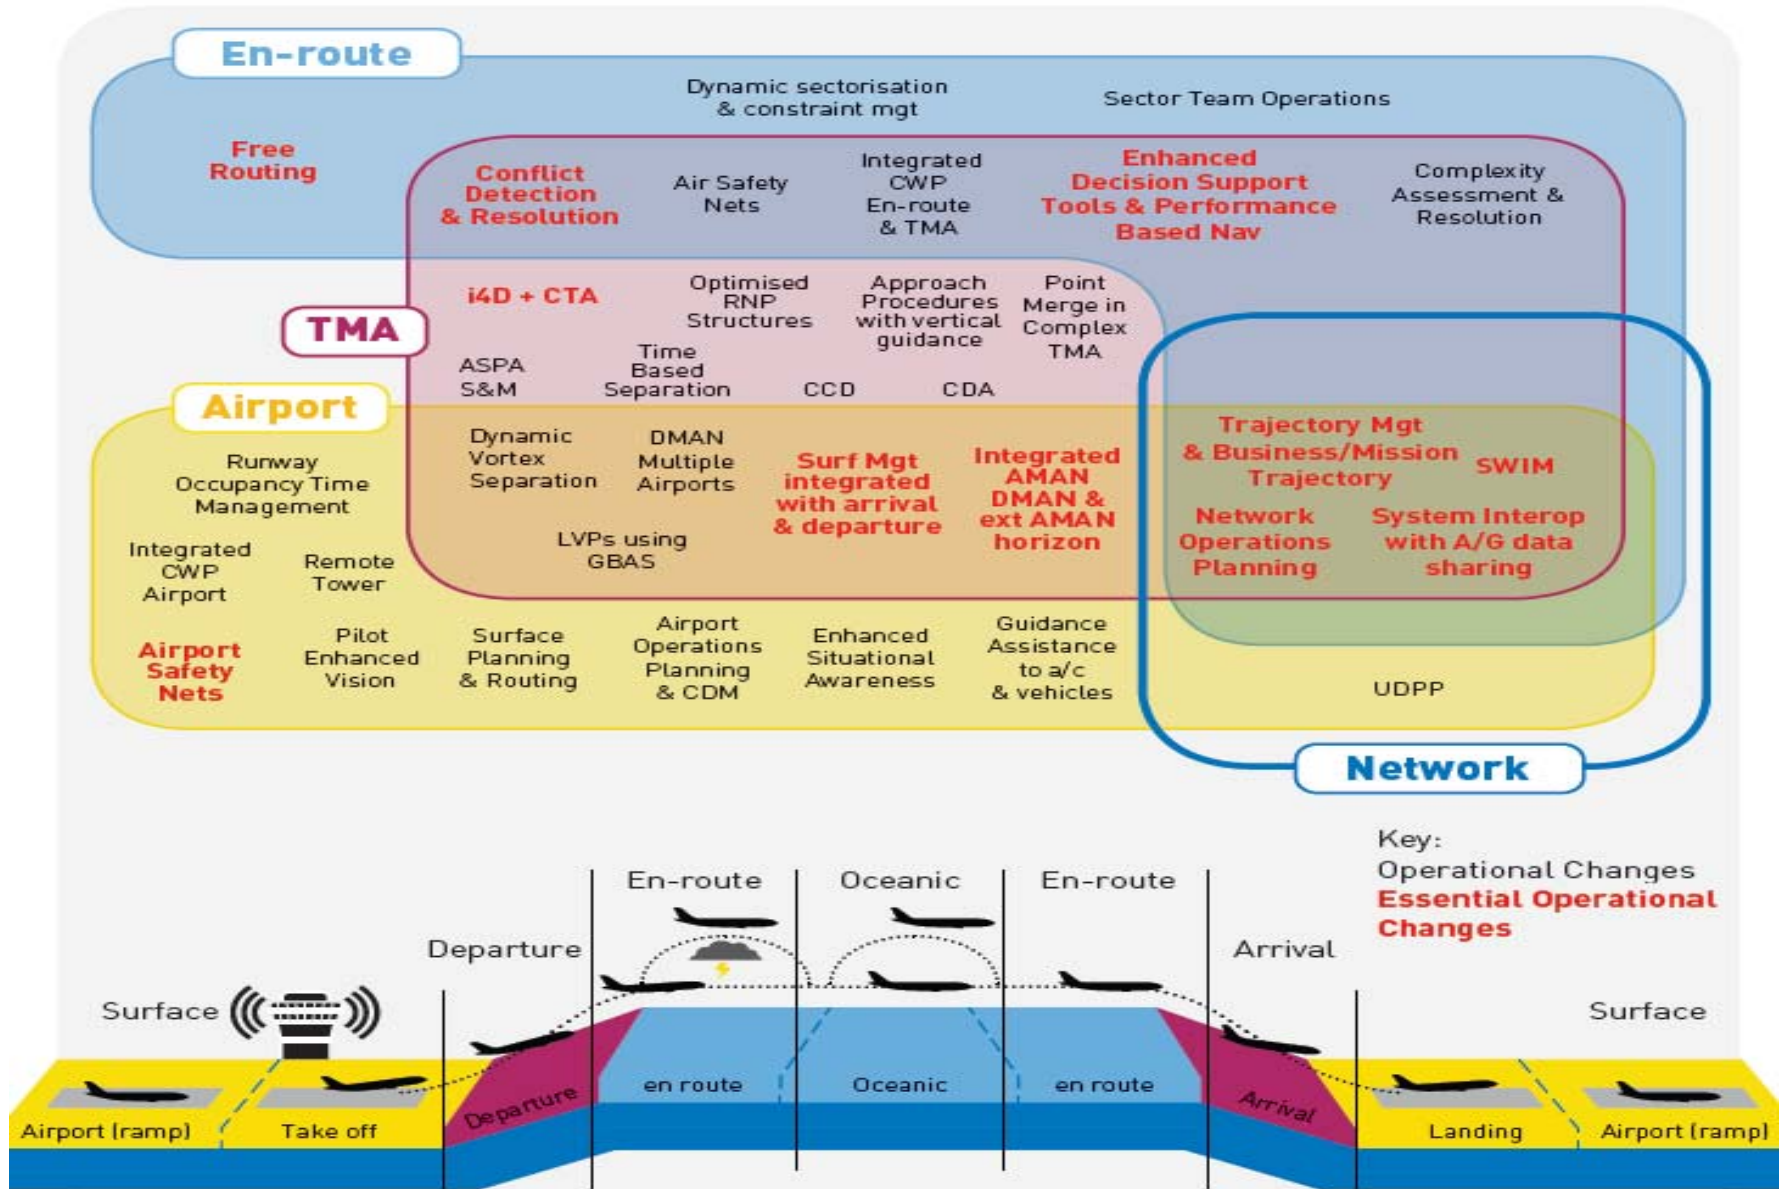

✦ A **2.8%** reduction per flight in environmental impact

✦ A **6%** reduction in cost per flight

# Operation changes in Step 1

## 步骤一与运营环境相关的运营变更

# Globally concurrent and complementary

## Same philosophy

- Need to improve ATM performance
- Through harmonisation of systems, procedures
  - And regulations
- Through deployment of a series of step changes
- Aim at the **Global ATM Operational Concept**

## Mutual impact,

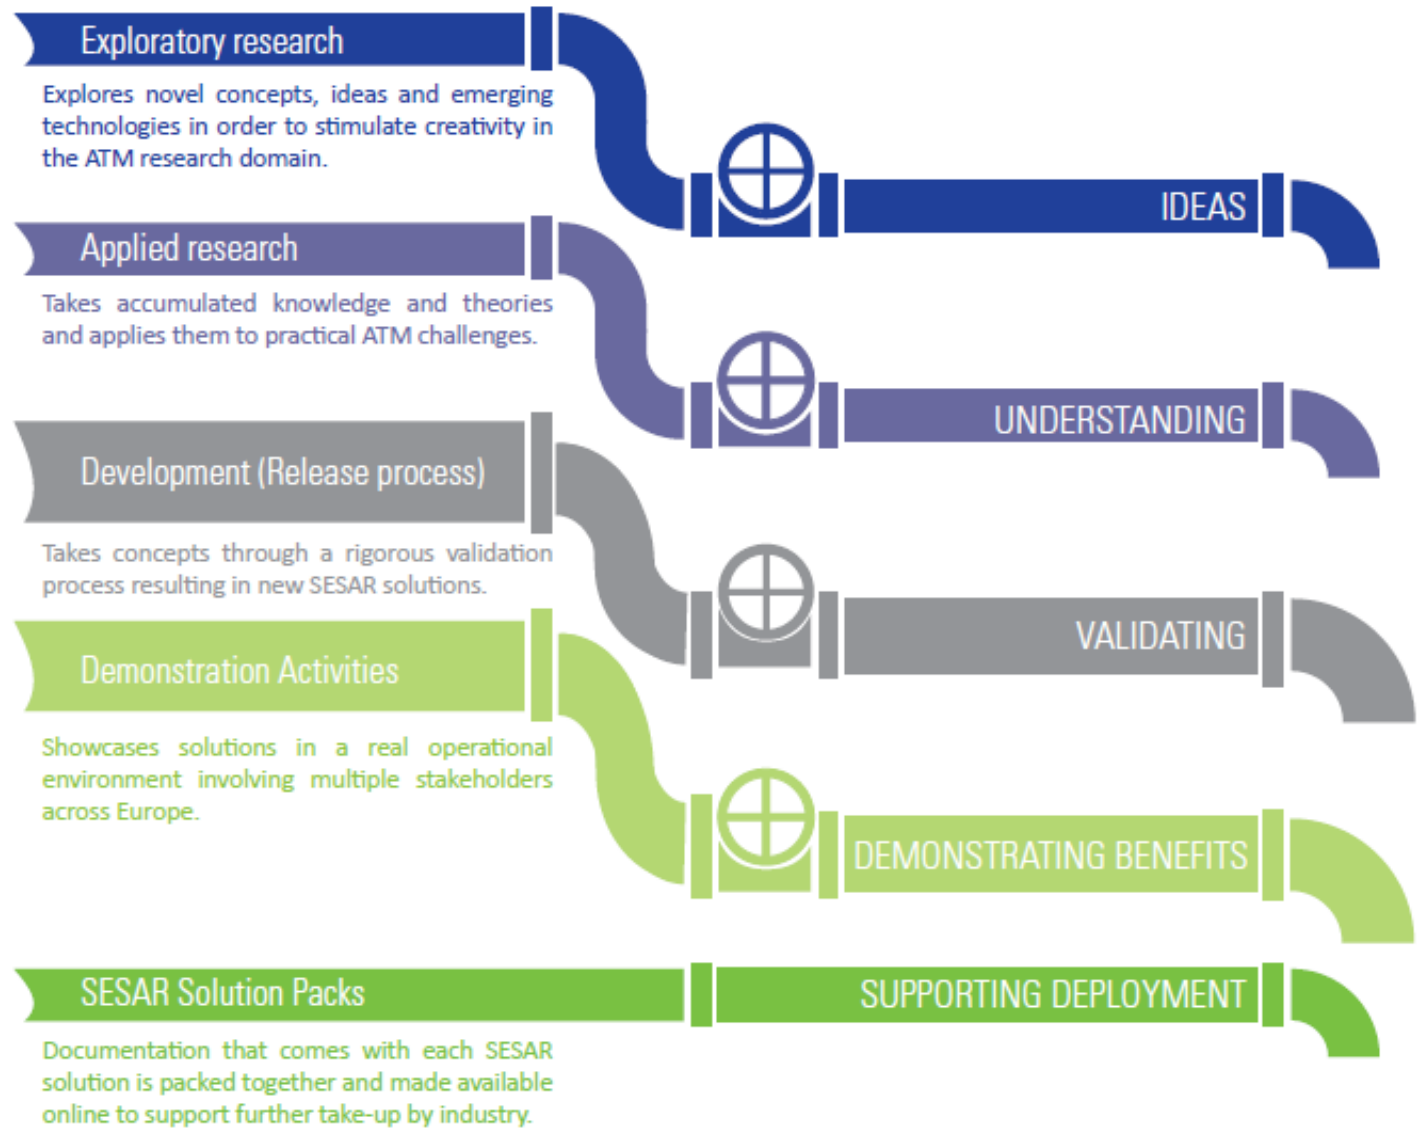

## Global ↔ European

- From concept definition to operations
- For timely and useful standards

# How SESAR works

## Innovation pipeline

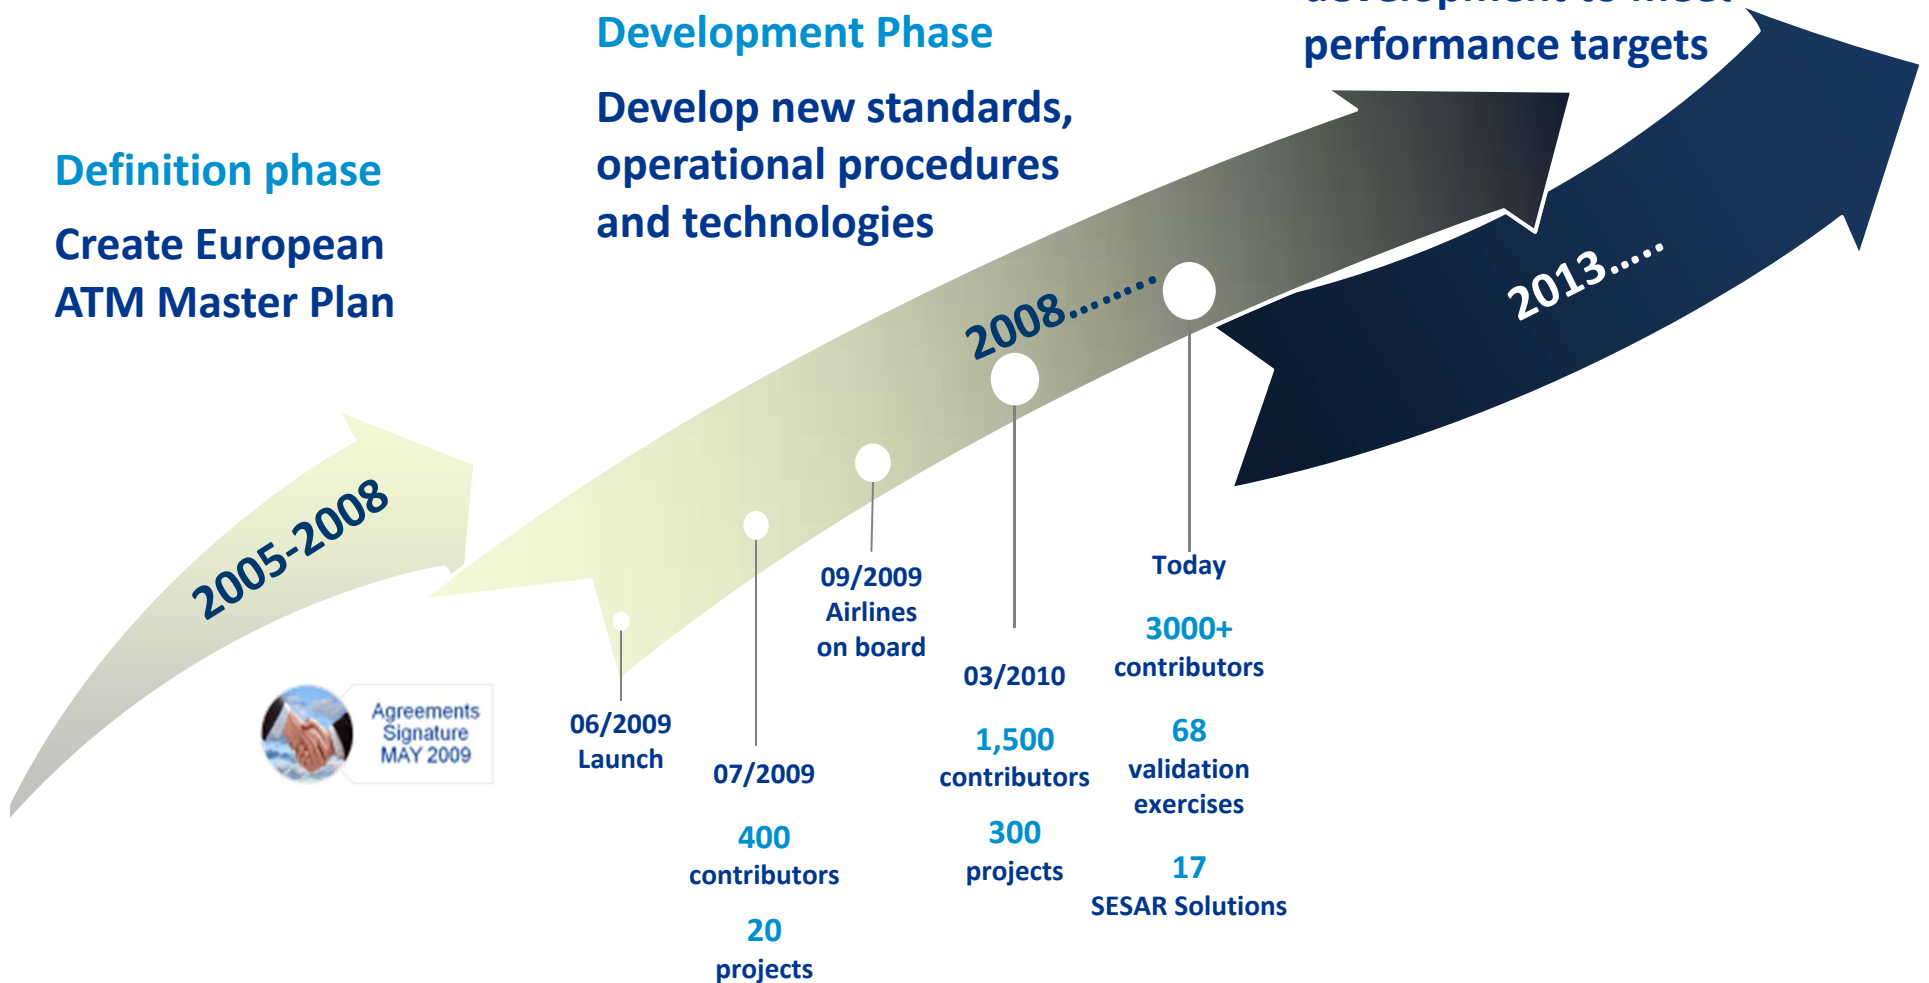

# Towards deployment

**Definition phase**  
Create European  
ATM Master Plan

**Development Phase**  
Develop new standards,  
operational procedures  
and technologies

**Deployment Phase**  
Implement results of  
development to meet  
performance targets

# SESAR results so far (1)

- **68 validation exercises** completed with results published indicating cost-efficiency, environmental and safety benefits
- **20 new validation exercises** underway
- **17 SESAR Solutions** (building blocks for deployment planning):
  - Moving from Airspace to 4D trajectory Management
  - Traffic Synchronization
  - Network Collaborative Management and DCB
  - Airport Integration and Throughput
  - SWIM
  - Conflict Management and Automation

2014

# SESAR Demonstration Activities

2015  
15 large scale  
demonstrations  
to be launched

- Environmental for transatlantic flights (AIRE)
- ★ SESAR Solutions Demonstrations
- ★ RPAS demonstrations

# SESAR: 2020 VISION

## Delivering best-in-class, globally interoperable and high-performing Air Transport for Airspace Users and Citizens

- Enabling the delivery of safe, cost-efficient and environmentally responsible Air Vehicle & ATM operations, systems and services

### High Performing Airport Operations

Capacity, Safety,  
Environment, Efficient,  
Effective, Networked

### Optimised ATM Network Services

Collaboration, Balancing  
Demand & Capacity,  
Environment, Efficiency

### Advanced Air Traffic Services

Synchronisation,  
Capacity, Safety,  
Environment, Cost

## Enabling the Aviation Infrastructure

- Providing shared technical services across the aviation domain
- Communications, positioning, navigation, timing and SWIM information

Thank you for your attention
