

Curriculum Vitae

ROSENDAAL Sander

CURRENT POSITION

Name of company

Sander Roosendaal

Job position

Department Leader, System Engineering & Applications
Honeywell Aerospace, Advanced Technology
since January 2015

PROFESSIONAL BACKGROUND

Sander Roosendaal has 20 years of experience in R&T. He joined Philips Research in Eindhoven, The Netherlands, as a scientist developing liquid crystal displays for mobile applications, as well as electronic paper technologies.

In 2008, he started his Honeywell career, being part of the team that built the Honeywell Aerospace R&D capabilities in Europe, and managed Honeywell's contribution to the SESAR program.

Since 2012, Sander Roosendaal has been Department Leader for Technology Strategy and Operations, responsible for operations and technology Strategy development and new pursuits. Since January 2015, Sander has been leading the department Systems Engineering and Applications, part of Honeywell Aerospace Engineering & Technology EMEA (AEE).

EDUCATION AND TRAININGS:

Mr Roosendaal holds a Ph.D. in Physics from the University of Utrecht.
