

The European ATM Master Plan campaign

Establishing Europe as the most efficient and environmentally-friendly sky to fly in the world

TIMING:

Tuesday 19 March, 15:00 - 15:50

LOCATION:

Airspace World, Future Skies Theatre (Palexpo)

DESCRIPTION:

The new European ATM Master Plan, to be adopted at the end of 2024, will set the vision and prioritise the digital solutions needed to deliver the Digital European Sky, with the goal of establishing Europe as the most efficient and environmentally-friendly sky to fly in the world. This session will provide an update on progress so far in relation to each of the key success criteria for the Master Plan campaign.

AGENDA:

Introduction and overview of the Master Plan campaign
