- Global policy
 - **Access** (No charging for first pair of certificates) *is given to below customers:*
 - **organisations which are actively engaged in ATFCM or Aircraft operations (and related support services), or to their delegated data handlers.**
- Flight Service Group
 - Route Generation and Flight Plan Validation => Global policy
 - Flight Plan filing and management => Global policy + restriction:
 - **Each requester should have his own SITA or AFTN address to receive subsequent messages (like FLS, SAM, SRM, ...) related to submitted flight plans.**
=> first dev step. To be removed after appropriate alternative messaging in place.
- Airspace Service Group
 - Access to route availability (CDR) => Global policy
 - Access to airspace availability (RSA) => Global policy + restriction:
 - **access to RSA only provided to airspace service providers, not to airspace users.**
- Flow Service Group and General Information Service Group
 - AIM and ANM access => Global policy

- On EUROCONTROL web site / One Sky Online
 - Logon One Sky Online, access One Sky Teams
 - Register and access “B2B - Web Services” team
 - Library
