The SESAR Joint Undertaking has set up a recruitment procedure that aims to establish a reserve list for 1 position of “Head of International Affairs”. The duty station is in Brussels, Belgium where the SESAR Joint Undertaking has its headquarters and where the place of employment is.

1. INTRODUCTION

1.1 The SESAR Programme

The Single European Sky Air Traffic Management Research and Development (“SESAR”) Programme aims to modernise the air traffic management (“ATM”) in Europe and represents the technological pillar of the Single European Sky.

The SESAR Programme comprises three interrelated, continuous and evolving collaborative processes: (1) the definition of the content and priorities, (2) the development of new technological systems, components and operational procedures of the SESAR concept and (3) the deployment plans of the next generation of ATM systems contributing to the achievement of the Single European Sky performance targets.

The definition process delivered the first edition of the European ATM Master plan (“ATM Master Plan”). The recently endorsed European ATM Master Plan 2015 is driving and steering the different activities performed in the context of the overall SESAR Programme.

1.2 The SESAR Joint undertaking

In order to properly manage this huge and ambitious programme, a legal entity was created under European Union law. The SESAR Joint Undertaking (“SJU”), was established under Council Regulation (EC) 219/2007 of 27 February 2007, Regulations as modified by Council Regulation (EC) 1361/2008 (SJU Regulation) and last amended by the Council Regulation (EC) 721/2014 of 16 June 2014.

The SJU is henceforth responsible for “carrying out specific activities aimed at modernising the European air traffic management system by coordinating and concentrating all relevant research and development efforts in the Community.”

1.3 SESAR 1 and SESAR 2020 Programme

The current SJU work programme (SESAR 1), covered by the European Union’s 2007-2013 financial perspectives, addresses all elements of Step 1 and approximately 80% of Step 2 of the ATM Master Plan. The related activities should be completed by 2016 while the remaining activities of Step 2 and those related to Step 3 should start in 2015 under the extended programme, named SESAR 2020, funded under the Union’s 2014-2020 financial framework.

The SESAR 2020 Programme will generate an innovation pipeline towards deployment, by demonstrating the viability of the technological and operational solutions already developed within SESAR 1, in larger and more operationally-integrated environments. At the same time, the new Programme will prioritise research and innovation in a number of areas, namely: integrated aircraft operations, high capacity airport operations, advanced airspace management and services, optimised network service performance; and a shared ATM infrastructure of operations systems and services.

Further information on the activities of the SESAR JU is available at: http://www.sesarju.eu.
