The SJU may reject abnormally low tenders, in particular if it is established that the tenderer or subcontractor does not comply with applicable obligations in the field of environmental, social and labour law.
Please note that the financial offer must be submitted in a separate binder or folder and a separate envelope as indicated in section 6 here above which must be clearly labelled “Financial offer”. Please ensure that the information related to the financial quotation is given nowhere else in the offer.

9. Submission of a tender implies acceptance of all the terms and conditions set out in this invitation to tender, in the tender specifications and in the draft contract and, where appropriate, waiver of the tenderer’s own general or specific terms and conditions. The content of the tender submitted is binding on the tenderer to whom the contract is to be awarded for the whole duration unless otherwise agreed between the tenderer or selected contractor and SJU.
   The SJU reserves the right to reject tenders stating that the provisions of the tender documents mentioned above are accepted subject to a number of conditions.

10. The period of validity of the tender, during which tenderers may not modify the terms of their tenders in any respect is 6 months from the final date for reception.
11. **Contacts** between the SJU and tenderers are prohibited throughout the procedure save in exceptional circumstances and under the following conditions only:

The Tenderer shall register for one visit at the latest 3 working days before its due date by sending to facility@sesarju.eu the following information:

- The preferred date of the visit and an alternative date as per the schedule above,
- The name of the legal entity,
- The name and function of the legal representative who will attend.

Should the Tenderer not be available during the three proposed dates and times, the Tenderer is requested to send a request for reschedule of the visit no later than 15/02/2018 17:00pm.

Each tenderer will be assigned an individual slot for the visit. Anonymized minutes of the visits (including questions raised and responses provided by the SIU) will be drafted by the SIU and sent to all tenders who participated to a visit.

The Tenderer can only participate in one of the visits with no possibility to repeat a visit.

12. (Nature and duration of the contract) The SIU will sign:
- for Lot 1 one direct service contract,
- for Lot 2 one framework service contract, and
- for Lot 3 one direct supply contract with the successful tenderers.

For Lot 1 and 2 the contracts will have an initial duration of (1) year as from the date of signature, and may be renewed up to (3) times, each for an additional period of (1) year.

For Lot 3 the contract will be concluded for a period of a maximum of 12 months as from the date of the signature of the contract. The draft contracts are annexed to this invitation to tender.

13. This invitation to tender is in no way binding on the SIU. The SIU’s contractual obligation commences only upon signature of the contract with the successful tenderer.

14. Up to the point of signature, the SIU may either abandon the procurement or cancel the award procedure, without the candidates or tenderers being entitled to claim any compensation. This decision must be substantiated and the candidates or tenderers notified.

15. Once the SIU has opened the tender, the document shall become the property of the SIU and it shall be treated confidentially.

16. You will be informed of the outcome of this procurement procedure by e-mail. It is your responsibility to provide a valid e-mail address together with your contact details in your tender and to check it regularly.

17. If processing tenderer’s reply to the invitation to tender involves the recording and processing of personal data (such as name, address and CV), such data will be processed pursuant to Regulation (EC) No 45/2001 on the protection of individuals with regard to the processing of personal data by the Community Institutions and bodies and on the free movement of such data. Unless indicated otherwise, your replies to the questions and any personal data requested are required to evaluate your tender in accordance with the specifications of the invitation to tender and will be processed...
solely for that purpose by the SIU. Details concerning the processing of personal data are available on the Privacy Statement at:
http://www.sesarju.eu/procurement.

18. If your tender includes subcontracting, it must be clearly indicated which parts of the services are intended to be subcontracted.

Subcontractor(s) must, as a general rule, satisfy the exclusion criteria as listed in section 4.2. of the Tender specifications. In case subcontractors are identified for the performance of critical tasks, the SIU reserves the right to request evidence on selection criteria as listed in section 4.3 of the Tender specifications.

If the identity of the intended subcontractor(s) is already known at the time of submitting the tender, the Tenderer must identify the subcontractor(s) according to the provisions defined above.

Tenderers are required to identify subcontractors, if any, whose share of the contract is above 10%.

If the identity of the sub-contractor(s) is not known at the time of submitting the tender, the tender who is awarded the contract will have to seek and receive SIU’s prior written authorisation before entering into a subcontract.

Please, note that solely the main contractor retains full liability towards the SIU for the performance of the contract as a whole. Accordingly:

- the SIU will treat all contractual matters (e.g. payments) exclusively with the main contractor, whether or not the tasks are performed by a subcontractor;
- under no circumstances can the main contractor avoid liability towards the SIU on the grounds that the subcontractor is at fault.

Where no subcontractor is given, the services will be assumed to be carried out directly by the contractor.

18bis. Consortia (or groupings) may submit a tender provided that they comply with the rules of competition. Consortium may be either a permanent, legally-established grouping or a grouping constituted for the purpose of a specific procedure.

The consortium must clearly specify the company or person leading the project (the coordinator). Therefore the tender (i.e. Administrative offer) must also include a duly filled in and signed letter of intent from each member of the consortium, authorising the coordinator to submit a tender on their behalf and confirming that the consortium members will place the resources necessary for performance of the contract.

All members of consortium (i.e. the coordinator and other members) are jointly and severally liable to the SIU. Therefore, tenders stating that either: (a) one of the member of consortium will be responsible for some part of the contract and another - for the other part(s), or that (b) more than one contract should be signed if the joint tender is successful; are incompatible with the principle of joint and several liability.

The SIU will consequently disregard any such statement contained in a tender and will reserve the right to reject such tenders without further evaluation on the grounds that they do not comply with the requirements of the present call for tender.

In addition, each member of consortium must provide the required evidence for the exclusion and selection criteria (see sections 4.2. and 4.3. of the tender specifications). Exclusion of one or several of the consortium members on these grounds might result in the exclusion of the whole consortium.
Concerning the selection criteria with regard to technical and professional capacity, the evidence provided by each member of consortium will be verified to ensure that the consortium as a whole fulfils the criteria.

19. Your personal data may be registered in the Early Detection and Exclusion System (EDES) if you are in one of the situations mentioned in Article 106 of the Financial Regulation. For more information, see the Privacy Statement on: http://ec.europa.eu/budget/explained/management/protecng/protecng_en.cfm

20. You may submit any observations concerning the procurement procedure to the contracting authority using the contact means under point 10. If you believe that there was maladministration, you may lodge a complaint to the European Ombudsman within two years of the date when you became aware of the facts on which the complaint is based (see http://www.ombudsman.europa.eu).

21. Within two months of notice of the award decision, you may launch an action for annulment of the award decision. Any request you may make and any reply from us, or any complaint for maladministration, will have neither the purpose nor the effect of suspending the time-limit for launching an action for annulment or to open a new period for launching an action for annulment. The body responsible for hearing annulment procedures is indicated in Section VI.4.1 of the contract notice.

Yours sincerely,

[Signature]
Mr Florian Guillermet
